-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 May 2005.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Cyras et al.

With regard to claim 21, Cyras et al teaches an adaptor to read an IC card or “Smart Card” comprising: a housing that receives a Smart Card and has a pinout arrangement adapted to interface with a PCMCIA socket (fig. 3) and a circuit adapted to control selected signal lines of the pinout arrangement to permit a Smart Card controller to read and operate the Smart Card through the PCMCIA socket (fig. 1, part 18 & col. 6, lines 5-18).

With regard to claim 22, Cyras et al teaches an expansion card comprising a PCMCIA Type II/III arrangement (col. 6, lines 43-53).

With regard to claims 23, 25, and 27, Cyras et al teaches an adaptor that reads and operates Smart Cards comprising: a controller that comprises circuitry for detecting, operating, and providing communications between the smart card controller and smart card and between a smart card and a bus controller using PC card communication protocols (col. 5, lines 61+), and an adapter providing operability of smart card in a PCMCIA type II/III socket and pinout arrangement (fig. 1, part 18 & col. 6, lines 5-18).

With regard to claim 24, Cyras et al teaches the adaptor comprising a circuit and a connector, the circuit connected to the connector and operating the first expansion card and generating signals operable through the socket (col. 6, lines 5-7).

With regard to claim 26, Cyras et al teaches an expansion card type being a memory card (col. 2, lines 6-9).

Response to Arguments

3. Applicant's arguments filed May 4, 2005 have been fully considered but they are not persuasive. With regard to arguments on page 1 that Cyras et al does not teach an adaptor, applicant's attention is directed to column 6, lines 50-61. Claims in a pending application should be given their broadest reasonable interpretation (In re Pearson, 181 USPQ 641 (CCPA 1974)).

Cyras et al does not use the term "smart card". However, it is known in the art that the term "IC card" can be substituted for "smart card". For example Deo et al teaches that the terms can be used interchangeably (col. 4, lines 36-40). Also, it has been held that the recitation that an element is "adapted to" perform a function is not a positive limitation but only requires the ability to so perform. It does not constitute a limitation in any patentable sense. (In re Hutchison, 69 USPQ 138).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2857

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Kim whose telephone number is 571-272-2217. The examiner can normally be reached on Monday-Thursday 10:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marc Hoff can be reached on 571-272-2216.
